PROFESSIONAL SUMMARY

Angular developer with 7+ years of experience designing and building dynamic, responsive web applications. Proficient in Angular, TypeScript, and front-end technologies including HTML, CSS, and JavaScript, with backend experience in NestJS. Skilled in performance optimization, reusable component design, and delivering high-quality, maintainable code.

TECHNICAL SKILLS

Web Technologies: TypeScript, JavaScript, HTML, CSS/SCSS, PHP, jQuery, Tailwind CSS, PrimeNG, NgRx

Frameworks: Angular, NestJS, Ionic, CodeIgniter

Databases: Firebase Realtime Database, MySQL

Tools & Practices: Git, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Consultant — Capgemini - Mar 2023 – Present

- Developed a skill management application to help identify and address skill gaps within the organization.
- Designed new user interfaces based on client requirements using Angular 18 and Angular Material.
- Built backend API endpoints in NestJS and integrated them with the front end.
- Mentored junior developers to strengthen their technical skills and support their professional growth.
- Participated in code reviews to enforce coding standards and improve overall code quality.

Technologies: Angular 16, Angular 18, Angular Material, NgRx, NestJS

Angular Developer — Infospica - Sep 2021 – Mar 2023

- Built the Access Line Integrated Intake System to record client cases and assign available attorneys.
- Integrated a calendar component library supporting month, week, and day views.
- Created reusable custom components and implemented custom form validations.
- Developed Govlink, the official application for filing surprise billing claims for the State of Georgia.
- Implemented custom validations and reusable components, and managed application state using NgRx.

Technologies: Angular 12/13, PrimeNG, PrimeFlex, NgRx, Angular Material, SCSS

Software Engineer — Abeyaantrix Solutions - Nov 2020 – Aug 2021

- Built a tax filing application (Australia DIY) enabling Australian citizens to file their taxes online.
- Developed highly reusable components used across multiple pages of the application.
- Applied the facade pattern to integrate backend APIs and manage client-side state using observables.

Technologies: Angular 10, Tailwind CSS, Angular Material, SCSS

Angular Developer — Galtech Technologies - Apr 2019 – Aug 2019

- Developed SK-ERP, an inventory management solution for a Dubai-based explosives and demolition services subsidiary.
- Built the login module and a module for recording incoming inventory materials.
- Integrated Firebase for database connectivity and data operations.

Technologies: Angular 7, Firebase, Ionic 3

Web Developer — Annvision Solutions - Oct 2017 – Mar 2019

- Designed and developed Punarvivaham, a matrimonial website for divorcees, including user registration, login, and admin panel functionality.
- Integrated the PayUmoney payment gateway to support online transactions.

- Developed three job portal websites (Evanios Jobs, Edu-Masters Job Services, Jobs Divine) in core PHP, building user and employer registration and resume collection.
- Built an admin panel supporting multiple user roles and redesigned key pages to improve usability.

Technologies: *PHP, CodeIgniter, jQuery*

ADDITIONAL PROJECTS

Quarantine Help (Open Source)

- Contributed to a hybrid mobile application (Android and web) that helps people find assistance while in quarantine.
- Developed key frontend UI components and integrated APIs.

Technologies: *Angular 8, Ionic 5*

EDUCATION

B.Tech, Computer Science & Engineering — Sahrdaya College of Engineering & Technology (2012 – 2016)
